July 2022 Response to Resistance report for the ELIPOC

07186922- On July 1st, 2022, at approximately 1:00 PM, ELPD officers were **dispatched** to a Retail Fraud that had just occurred at a business in the 100 Blk of E. Grand River (Sector 2). A description of the subject was given. The subject fled in a southbound direction across E. Grand River Ave where the subject was struck by a moving vehicle in the roadway. Significant damage occurred to the vehicle due to the traffic crash. After being struck by the car the subject continued to flee onto the campus of Michigan State University where a significant amount of blood could be observed on the ground. Due to a significant injury that occurred to the subject who fled after being struck by a vehicle, the on-duty supervisor notified Deputy Chief (DC) Connelly about the incident and gave DC Connelly a description of the subject. DC Connelly and I assisted on the call by taking a perimeter point at Grand River and Division while a Michigan State Police K9 tracked the subject who fled. While on our perimeter point, we were in an unmarked Ford Explorer wearing plain clothes. Due to our assignment, we do not wear a body-worn camera as we are not assigned to patrol. We also do not carry any less lethal weapons (i.e. Taser or Personal Chemical Agent) or have any soft body armor on. As both DC and I were sitting stationary we could observe a subject fitting the description about 100 yards away from us on campus. Due to this observation, I drove my vehicle eastbound on E. Grand River towards Bailey. As we approached Baily St. an MSUDPS Sergeant called out that he was trying to contact the subject and that he was running northbound towards Grand River. I immediately did a U-turn on Grand River heading westbound at Bailey. We observed a subject matching the description running towards Grand River near Division from where the Sergeant had called out, he had a subject running from him. As we came to a stop for a red light at the Grand River & Division intersection, DC Connelly exited the car, ran up to the subject, identified himself as the police, and told the subject to show his hands. The subject was bladed away from DC Connelly where he was unable to see one hand. DC Connelly did draw his duty weapon and point it at the low ready towards the subject. The subject was given loud verbal commands. I also exited my vehicle and after the subject had not initially complied with DC Connelly's orders told the subject to place his hands behind his back. The subject did also not comply. I did have to grab ahold of the subject's left arm and put him in a soft empty hand technique (wrist lock). The subject continued to not comply, due to that non-compliance with the wrist lock applied I took the subject down to his knees. The MSUDPS Sergeant then arrived to assist DC Connelly and me. The MSUDPS Sergeant did handcuff the subject. The subject involved was not the individual that committed the Retail Fraud or was struck by the car but was wanted by MSUDPS on a crime from earlier in the day. The subject initially would not identify himself. After talking to the subject for about 10 minutes the subject finally identified himself to me. The subject did have multiple warrants for his arrest out of another jurisdiction.

The subject driving the vehicle intentionally ran over an individual who later died at the hospital. The subject was identified, and a photo of the subject was sent to the officers who were on the call via their in-car computers. A description was given of the clothing and the subject's direction of travel to the officers. Officer Kingsbury arrived on the scene in her patrol car and took a perimeter point while LPD K9 tracked the subject. After the K9 track was called and was unable to locate the subject, Officer Kingsbury and the LPD K9 officer walked the railroad track which was where the subject's cellphone was being pinged at. Officer Kingsbury observed the subject walking out of the woods onto the railroad track just to the east of her and the K9 officer. Officer Kingsbury did unholster her weapon, pointing it at the subject, and gave loud verbal commands to the subject to show her his hands. The subject was given additional command and was placed into custody by an LPD officer.

The caller indicated a black male subject wearing a white T-shirt was actively trying to break into her home. The sound was coming from the backdoor of the residence which also sounded like something being cut by a saw. The caller also indicated there was a second subject out front of the residence. Officers Harrison and Cotton arrived on the scene in their patrol cars. Both officers immediately unholstered their duty weapons. Officer Harrison observed subject 1 near the back door of the residence on a ladder and directed the subject to show her his hands. Both officers had their duty weapons pointed toward the subject. 07188622- On July 4th, 2022, at approximately 3:20 AM, Officer Stemen was on patrol (*self-imitated*) in the 100 Blk of Reiniger Ct. (Sector 3) due to a stolen license plate report and other theft reports in the area. As Officer Stemen pulled into the parking lot, he observed a vehicle running with its headlights on. Officer Stemen pulled around the vehicle and placed his spotlight

on the vehicle's rear window of the car. Officer Stemen could not see anyone inside the car at this time. As Officer Stemen exited his car and started to walk up on the passenger side of the vehicle, he observed a subject in the driver's seat looking back towards him as the subject sat up. A second passenger in the backseat laying down and a front seat passenger had his hood up with his head ducked down. Officer Stemen could observe that there was broken glass on the floor behind the driver's seat. Officer Stemen spoke with the driver who stated he was waiting on a friend in the apartment complex. Due to the totality of the circumstances, Officer Stemen returned to his vehicle and ran the license plate through LEIN. LEIN indicated that the registration plate/vehicle was reported stolen out of the City of Lansing. Additional units were requested by Officer Stemen due to the stolen vehicle. Ingham Dispatch 911 Dispatch Center confirmed that the vehicle was stolen. Officers Ferguson, Kingsbury, and Wachowski arrived to assist with the Felony Stop of the vehicle. The vehicle then began to drive away so Officer Stemen activated the overhead lights on his patrol car. The vehicle shortly thereafter stopped. During the Felony Stop officer Stemen, Ferguson, Kingsbury, and Wachowski had their handguns displayed toward the subjects. The occupants were advised to exit the vehicle one at a time. Officer Stemen and Ferguson did re-holster their firearms and handcuffed the three subjects. Maranda's statement by one of the occupants admitted to stealing the vehicle in Lansing a couple of nights prior. All three subjects were released to their guardians. Officers will be seeking a warrant through ICPO.

07193422- On July 10th, 2022, at approximately 9:52 PM Officer Woodruff and Sgt. Young was **dispatched** to a business in the 100 Blk of Albert (Sector 2) for a suspicious person complaint. Sgt. Young contacted the manager out front of the business who indicated that he did not want the subject to return to the business (Trespassing) due to the subject making threats to his staff in the past and bothering patrons. The manager also gave Sgt. Young an open bottle of alcohol which the subject had left in front of the business. The subject was last seen heading towards the Riviera Café leaving the business before the officer's arrival. Sgt. Young walked away from the front of the business walking around the downtown El Fresco area. Sgt. Young then observed the subject matching the description given by management walking towards the business. The subject then yelled out to Sgt. Young. Sgt. Young notified the subject that he was no longer

allowed in the business, this was per the management statement to Sgt. Young. The subject stated to the officers to get the fuck out of here and I don't like you. The subject then walked away from the officers.

As Sgt. Young knew that the subject had warrants in the past, Sgt. Young ran the subject through LEIN which indicated the subject had a confirmed and valid warrant for his arrest at this time out of another jurisdiction. While the officers were confirming the warrant, the subject asked Officer Woodruff for a ride to the south side of Lansing. The subject was then put in the backseat of the patrol car, this was before the confirmation and pickup of the subject by another police jurisdiction and the subject was not in handcuffs. While the subject was in the backseat of the patrol car Officer Woodruff could smell the odor of intoxicants and requested the subject to consent to a PBT. The subject did comply, reading a .273% BAC on the PBT. After receiving confirmation of the warrant from the other agency and that the agency would pick up the subject from our officers, the officers notified the subject of his warrants while the subject was still in the backseat of the patrol car.

Officer Woodruff opened the door to the patrol car and was about to put handcuffs on the subject to place him under arrest, with the rear patrol car door open, the subject came out of the backseat pulling away from the officer when he was told to put his hands behind his back and that he had a warrant for his arrest. Both Officer Woodruff and Sgt. Young grabbed ahold of the subjects' hands (soft empty hand techniques). The officers could feel that the subject's arms were tightening up (Active Resistance) as he started to pull away from the officers. The subject was placed up against the patrol car where the officers were attempting to handcuff the subject, however, the subject was trying to pull his arms apart (Active Resistance). The officers were able to handcuff the subject as the subject was resisting being handcuffed. The officers then asked the subject to get in the backseat of the patrol car. The subject stated, "I'm not going to jail". The officers tried to escort the subject to the rear door of the patrol car where he placed his foot in the door jam, near the frame of the car to stop himself from getting in the patrol car (Active Resistance). The subject was yelling I'm not going in. Sgt. Young did give verbal commands for the subject to get into the patrol car. Sgt. Young did give three straight punches (distraction technique/motor dysfunction & Hard Empty Hand Technique/Physical Controls) to the common peroneal (side of the thigh) as Officer Woodruff tried to get the subject's knee to bend to get the subject in the patrol car. Due to this technique not working the officers asked for additional help from other East Lansing Police Department officers. Officer Woodruff and Sgt. Young decided to take the subject to the ground until the other officers arrived (soft empty hand technique). Sgt. Young did place his knee across the subject's butt, however, the subject was trying to push himself up off the ground, where Sgt. Young then moved his knee to the subject's back. As other officers arrived, they were able to get the subject up off the ground and again attempt to get the subject in the patrol car. Again, the subject did not comply (Active Resistance). The subject was then turned around so that he was facing away from the patrol car near the rear door. Officers Stemen was able to grab the back of the subject's pants and with the assistance of the other officers in front of the subject, they were able to get the subject into the backseat of the patrol car.

The subject was then transported to ELPD jail. At the ELPD jail sallyport, the subject would not get out of the patrol car. Officer Stemen did talk to the subject (de-escalating the subject) to get him out of the car. The subject tried to slip the handcuffs to the front of his body before getting out of the patrol car. The subject was then escorted to the jail by Officer Stemen. However, the subject stopped walking to the jail going limp. Four officers including Jail Service Officer McCabe (JSO) had to pick up the subject and carry the subject to a jail cell. The subject was then un-handcuffed as Officer Stemen and JSO McCabe controlled the subject's legs and upper body. The subject was issued a citation for Disorderly Conduct Hinder/Resist/Obstruct.

07193522- On July 11th, 2022, at approximately 4:34 AM, Officers Woodruff and Kingsbury were dispatched to an apartment complex in the 1400 Blk of Haslett Rd (Sector 1). The officers were advised that the caller, the subject's ex-girlfriend was calling stating that the subject was threatening her and at one point stated he was going to kill her. The caller also stated that the subject was destroying the apartment and that the subject was threatening to force his way into the apartment. As the officers arrived on the scene in their patrol cars. The officers could hear a male subject screaming and items being thrown around inside the apartment when they made entry into the common area. The officers did knock on the door and ask the subject to come out of the residence. The subject did open the door, observe the officers, and slam the door shut. Due to the statements to harm himself and his ex-girlfriend Officer Woodruff opened the door to the apartment. The subject then sat on the floor yelling, acting erratic, and crying. The officers could observe that the residence items inside had been damaged and destroyed. Due to the subject's irrational behavior, damage to property and the officer's unknown knowledge if the subject had committed a crime, Officer Woodruff and Kingsbury did handcuff and detain the subject. Due to the subject's intoxication and mental status (*person requiring treatment*), the officers did request ELFD to transport the subject to the hospital. The subject was transported to a local hospital by ELFD paramedics while Officer Woodruff riding along. Officer Woodruff did fill out a PRT at the hospital. At the hospital the subject was un-handcuffed.

The tip was a reference to a subject, whose name and photograph were provided in the tip sheet, who was a possible accused subject in an unreported shooting. Officer Mommersteeg was sitting stationary in his patrol car on Stoddard near Beech St. Officer Mommersteeg utilized LEIN to find that the subject had two warrants for his arrest out of another jurisdiction, one a statewide pickup. As Officer Mommersteeg was sitting stationary two subjects started walking towards his patrol car from the direction of 600 Blk of Stoddard Ave. One was a female subject; the other was a male. The male subject passed Officer Mommersteeg with the hood of his sweatshirt up over his head trying to conceal his face. After the subject passed Officer Mommersteeg, the officer exited his patrol car but lost sight of the subject. Due to losing sight of the subject Officer Mommersteeg got back into his patrol vehicle and searched the area for the subject. While searching the area Officer Mommersteeg observed the subject running on Gunson St. The subject was last seen running into the front yard of a residence in the 300 Blk of Gunson. Officer Mommersteeg, Bennett, and Nelson contacted an individual with an open bottle of alcohol/city ordinance violation in the parking lot of a business in the 300 Blk of Grove (Sector 2). As the officers were making contact with the first individual to advise him to dump out the alcohol, a second individual got into his

Officer Bennett did advise the second individual to turn his music down and another individual was reaching in the backseat while Officer Ferguson was illuminating the interior of the vehicle. While standing at the vehicle Officer Ferguson observed in plain view a handgun in the backseat center entry into the truck of the second individual's vehicle. This individual was eventually placed under arrest for CCW.

Subject1, who had already been advised of the open alcohol ordinance that night, walked toward the officers again with open alcohol.
